

タイトル

The only online watch repair school in Japan goes global. A new trend of learning anytime, anywhere.

リード

Online Watch Academy, Japan's only online watch repair school, is launching a new course for international students. This program offers watch enthusiasts and those aiming to advance their expertise in watch repair with the opportunity to acquire the skills and knowledge necessary for repairing mechanical watches.

Master professional watch repair techniques from the comfort of your home

Learn top-class, accurate techniques from instructors with over 25 years of watch repair experience, more than 10 years of teaching experience, and hold the highest-level of watch repair certification in Japan. At Online Watch Academy, you'll gain the skills and knowledge needed to disassemble, clean, and assemble mechanical watches with over 700 years of history—all online. Whether you want to master watch repair as a hobby, or enhance your skills for professional use, we are here for you.

The screenshot shows the 'Lesson' page for 'Watch Repair Basics' on the Online Watch Academy website. The page has a dark blue header with navigation links: TOP, Movie list, LIVE archive, Curriculum basic, and Payment. Below the header, the page is titled 'Lesson' and 'Watch Repair Basics'. There are two main sections: 'PART1: Basic hand-winding watch' and 'PART2: Basic quartz watch'. Each section includes a list of video lessons (vol.01 to vol.04 for Part 1, and vol.01 to vol.05 for Part 2) with brief descriptions of the content.
